

Evaluation of the organization and activities "Digital Storytelling for Social Change (DiGiSC)" Youth Exchange

We would like to have your opinion about our YE, that took place in PISSOURI, LIMASSOL, CYPRUS (HYLATIO TOURIST VILLAGE) regarding the overall training organization and the activities we had; educational, cultural and others.

The questionnaire is divided in five sections and we would like to gather your feedback because your opinion is important to us and will also help us to improve. This questionnaire is only for participants AND LEADERS in the training.

Management and Organisation Questions

The following questions are about the project's overall organization. Answers are from one to 5 where one is the very negative answer and 5 the very positive answer. With the following order: 1. Highly ...onse must be your personal opinion depending on your own experience.

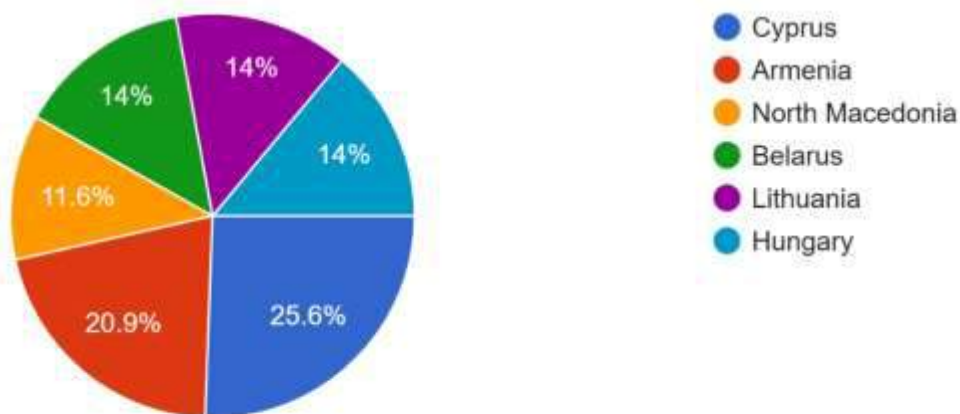

Do u want to mention anything about management or information sent and other organizational themes of the project?

I really liked that we could give reflections and the facilitators immediately took charge of taking them into consideration and more internationally mixed community. Everything was in time and order but flexible for the group's necessities. The accomadition and the whole management was well organized and we appreciate the work behind it.
Everything was clear and did in time
Everything was really good
I enjoyed my participation to the project,it motivated me to do more and I will contune my Erasmus journey
It was great only unfortunately in our room we had no internet connection
Boghos ♥♥

I'd have liked a more detailed information about the format of the pre-project activities. Like for the posters, our team was unaware, that we also must have a research written down, therefore the written part was done last minute, and we were not fully satisfied with it. Mixed rooms would have been nice, I think that having rooms by nationality also made getting to know each other harder. (since "lakva ismerszik meg az ember").
Bobby 💧💧💧
No everything was amazing
everythings good
Cool infopack, really used it in preparation for the trip

Glad I joined This project, really. You organized everything very good. Thanks a lot!
No everything was perfect
No everything is very good
There was definitely a problem with time management, as the sessions ended late pretty often.
And I didn't like that when we were late, it was met with a very negative expression, although it only happened once for me and because of a very serious reason.

Any comments about the activities?

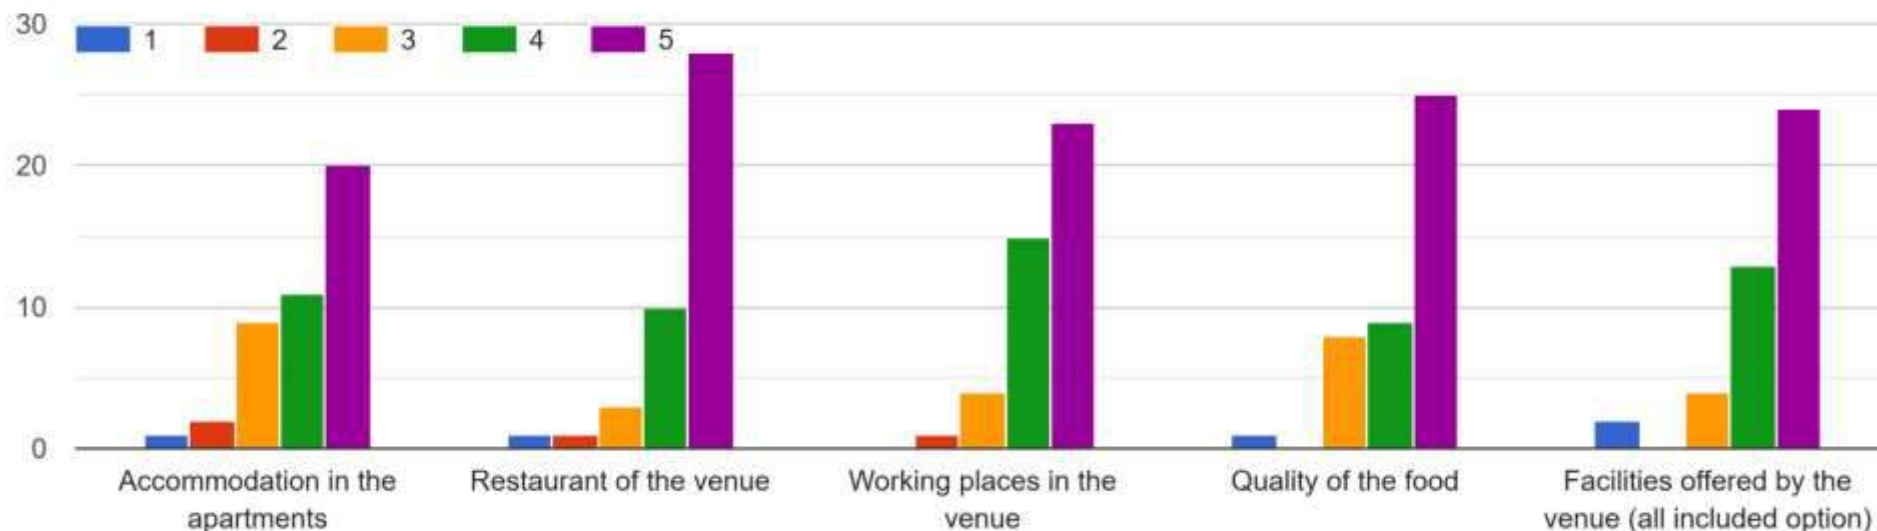

Perfect Activities were easy and artistic, also relied to the topic, in that way it was easier to understand and get into deeper conversations Thank you Bobby for his energy and effort he did great job It was really active and enjoyable from the 3rd days till the end Really interesting - first time I'm not bored that they were great In some activities we should had more time loved them Activities were really nice and engaging. Enjoyed the topic of the project. All the activities were related to it end helped us during the project. Enjoyed it a lot! Very nice 🍷 🍷 🍷	The activities were great, the only caotic one was the one where we had to find out movie titles. It is important, that everyone can take part, and their aim of participation shouldn't be taken away by not having previous knowledge. It was also nice everyone having a little role for today, but maybe it would have been nicer if every team had one for the day. Other roles, like "mood checker" would have been nice. I love the activities but i dont like dance.. Everything super fine!!! Had much fun Some were nice, others not so much. I would like to see more of the educational side of the event, although it was still very interesting. Thank you for not making the schedule too active. Love bobbie	The activities covered a lot of important topics, we could actively communicate amd share valuable opinions with each other through the well-lead games. I enjoyed that we also could be 'turstis' and explore different parts of Cyprus together and understand the culture here in person, together. Acting and creative tasks via media tools were amazing. Exhausting Everything was perfect. I think it would be nice if we had done the movie part at the beginning of the program because it made the participants closer than ever. They were very fun and interesting, I have enjoyed partisipating They were all very fun, easy to follow and I learnt a lot from them Very useful

Any additional comments?

Kudos to Bobby, none of this would've been possible without his amazing management and his organizational capacity. This was my first erasmus+ and honestly I would love to come back and re-participate again whenever you host Hungary for your next project. Thank you for this adventure, everyone's work and understanding we got here! Little more free time Slayyyyyy Everything was great, the only thing that disappointed me was that there was no hot water, even though it is an excellent hotel. Not really. Food is perfection 🍷 🍷	The hotel should give participants more than just one key. If we lose them, we pay. But they got tired at times in the reception when we were asking for them. Also the fact that we couldnt move tables was annoying. The rest, 5 stars 😊 Thank you for all the organizors, facilitators and staff members ♥ Thank you for all activities and the time that we had together working on our projects and discussing important things. Lactose free options pls Bobby was amazing!! Good job with preparation and facilitating You were amazing everything was very good. The Best ♥	Give Bobbie a raise In the beginning the age group diversity was visible but from the middle part of the project, the facilitators managed it pretty well and group mixing. If we do project with underaged, we should take more care about them, not the regular adult participants, but the leaders or someone responsible for that (we ofc took care if them, but what if we didn't??). food was good Everything was ok, the only thing is that there were more underage people than adults, which made the project a bit unbalanced.

Accommodation and Food of the Training

Within your recent stay in HYLATIO TOURIST VILLAGE, PISSOURI, LIMASSOL, CYPRUS for the need of the training please rate your overall satisfaction with:

Anything that you want to mention in particular that will make us better about our future projects which have to do with the accommodation place and the food in the project

No

Ac was not working, there were rooms with no hot water, no shampoos or toothpastes, it was cold and not all people received additional blankets etc. but overall really liked the hotel. Location is very nice.

For me and my bestie is ok to share one sofa, but probably for many of those who could not know each other before it wouldn't be nice

Doesn't have hot water

Very good staff

I don't know if it's possible, but having a national food of each country for a night would be great

We didnt have any hot water to shower with but overall everything else was great

I hope they fix the problem with the water and the food improves.

Not many vegetarian options during lunches and dinners, meaning that I ate the same food as the others, but without meat. That didn't give me enough protein, which vegetarians also need :)

Best venue i have ever been

no hot water unfortunately

It would be better to have more healthy food (not only potatoes and other gluten garnish)

Everything was good thank you ❤️ Just Need to put more attention for under 18 year old for their own safety they are so pure soul
The food was really good and the staffs were really nice and helpful throughout the project days

fix showers, didnt have warm water at all
I was satisfied with everything, thank you!

Not hot water

Wi fi was really slow.

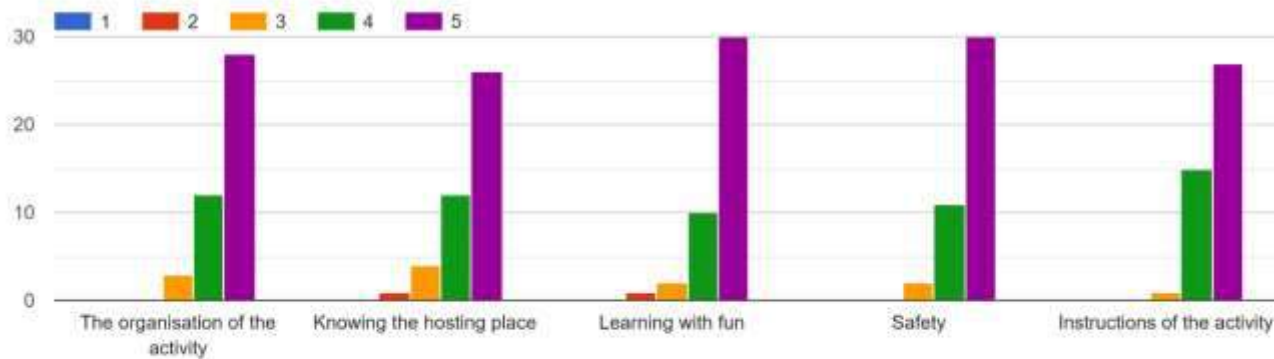

Wi-Fi so bad, yes we have internet but its not unlimited, so we need internet, basically in our rooms

Never any hot water
Fix your showers please.
The same fat food everyday

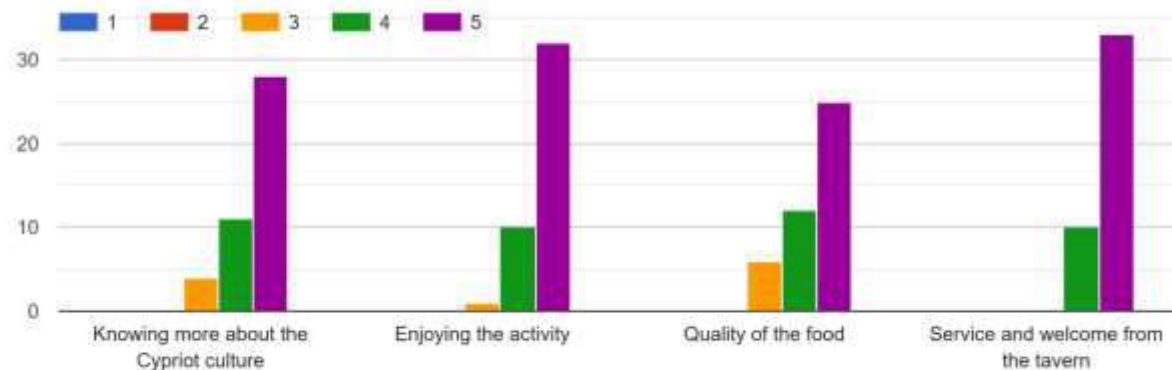

The noise from other guests while we are having session. I wish we could have a separate training room

General Questions

Write your emotional outcome for the organisation and implementation of the YE

Loved the activities, loved the experience wish I could be back again to participate this was too good.

It was an awesome experience especially as a first time Erasmus I had met lot of nice people and brainstormed crazy good ideas that may one day change the world i loved it all
Enjoyed every moment of the project, cause starting from organization every detail was made for our and project's goal benefits. Exchanging thoughts and experiences with others from different cultures and backgrounds broadens the vision you have for very different aspects.

This was an amazing week spending with amazing people and learning many new things. It was really nice to explore storytelling world, amazing. I hope to be here again because it was appealing to me. I am obsessed with you. And Boghos was my safe zone. I really love him as a facilitator and just a person to speak with. You have my heart, Boghos

Huge thanks to Bobbie, he did a great job for all of us. I mean working with 40 veeery different people and having them work together for the goal that we had at the beginning is really hard. And he is a very hardworking person I admire.
