Evaluation letter of DIGISC project

Youth Exchange which worked in different non formal education methods on the topics of Social Change, Diversity, and Inclusion.

Activity dates: 27 of March till 4 of April 2026

Activity place: Hylatio Tourist Village, Pissouri, Limassol, Cyprus

We would like to express our sincere appreciation for the successful implementation of the youth exchange project dedicated to empowering young people through digital storytelling for social change.

The overall aim of the project — to equip young people with storytelling skills and digital tools to raise awareness of important social issues and inspire positive change — was clearly reflected throughout the entire programme.

The combination of non-formal learning methods, interactive workshops, and practical group work created an engaging learning environment. Participants gained experience in digital storytelling, including video production, photography, theatre creation, and the use of accessible digital tools. These activities enabled them to transform their ideas into meaningful stories capable of addressing social challenges and promoting active citizenship. Particularly impactful were the collaborative international group projects, which encouraged intercultural dialogue, teamwork, and mutual understanding among participants from diverse backgrounds.

From an organisational perspective, we would like to highlight the excellent cooperation and communication throughout the project. The organising team demonstrated professionalism, flexibility, and dedication at every stage of the exchange. Communication with partners was clear, timely, and transparent, contributing to the smooth implementation of all activities and creating a positive atmosphere for both participants and partner organisations.

Furthermore, special attention was given to creating an inclusive and supportive learning environment. Participants were encouraged to actively contribute, share their experiences, and develop confidence in expressing their views. The organisers ensured that all participants felt welcomed, respected, and engaged throughout the project.

Overall, the project significantly contributed to the personal and professional development of the participants by providing them with practical digital storytelling skills, greater awareness of social issues, and increased motivation to become active changemakers in their communities. We highly value this cooperation and would warmly recommend the host organisation as a reliable, professional, and committed partner for future Erasmus+ projects.

Katsiaryna Masimenko
